Dr. Marc-Patrick Adolph works in the valuation function of IPConcept (Luxemburg) S.A.. His responsibilities include the valuation of hard-to-value assets, in particular private debt & equity instruments as well as structured products. Mr Adolph is involved in the development, implementation and operation of new concepts for the in depth asset analysis, monitoring and valuation procedures. He wrote his doctoral thesis on Structured Eurobonds at the Chair of Monetary Economics at the University of Trier.

Luca Soppelsa leads the daily operation of the risk and monitoring team of FS Impact Finance. He is responsible for developing, analysing and reporting on the risk profiles of countries and individual assets under management. In addition, he assesses the risk/opportunity of new investments and manages distressed credit exposures and workout strategies. Before joining FS Impact Finance, Luca gathered a multifaceted finance expertise by working for ten years on international, multi-stakeholder projects in the audit, banking and green finance sectors. Since 2013, the focus of his day-to-day work has been on frontier markets. Luca holds a Master in International Economics and Business (Globalisation and Development) from Utrecht University and a Master in Management from the University of Trento. He is a Certified Risk Manager and Renewable Energy Finance Expert by the Frankfurt School of Finance & Management.
