Theme:

Ready for Takeoff – Aviation Finance in a Post-Pandemic World

Date:

November 23, 2021
2:30 p.m. – 3:30 p.m.

The Covid-19 pandemic had an enormous impact on the transportation sector and has deeply disrupted the global aviation industry, affecting passenger traffic and air cargo demand. While a large number of its actors are clearly suffering today, the industry itself is very unlikely to disappear. As border travel barriers are progressively lifted, global air travel demand has shown signs of recovery led by large domestic markets like US, China and parts of the Asia-Pacific region.

This webinar will provide an in-depth view and discussion on the current state of the aviation finance industry and will highlight the emerging opportunities for investors as the market begins to recover.

AGENDA
